### **THE WOMAN I AM NOW**

I am 32 years into my life sentence and I've spent my time taking advantage of every educational opportunity that has been available. My days are spent mentoring and volunteering. I am a Certified Peer Specialist. For the last 10 years I have been helping women with mental health challenges as well as assisting newly arrived women in adjusting to the prison environment. Through my personal challenges that I have worked hard to overcome, I have grown into a person who understands responsibility. I know that I am well prepared to be an asset to my community when given the chance.

I also have a desire to become a self-employed website designer.
